

DELOITTE QQT

THE CHALLENGE

Across 14 levels, Deloitte's Sydney headquarters required a hardware solution that could respond to varied workplace environments while maintaining a consistent, refined design language throughout.

THE SOLUTION

Entro delivered a coordinated hardware package featuring bespoke door handles and multiple powdercoat finishes, carefully aligned with Hassell's material palette and design intent.

THE OUTCOME

The completed hardware integrates seamlessly throughout the workplace, creating a cohesive architectural detail that supports the quality and sophistication of Deloitte's landmark Sydney headquarters.

A great project to be part of, delivering bespoke hardware and finishes across an impressive 14-level workplace.
