PRODUCT CUSTOMISATION

- Custom Entrance Handle Sizing & Designs
- Timber Stain Finishes
- Leather Wrapping Services
- Lever on Plate Configurations
- Special Colour Finishes
- Custom Braille & Statutory Signage
- Door Protection Kickplates Cut-to-Size

All custom products are designed to comply with the relevant building codes and certificated without substituting design or quality. Each ENTRO product is manufactured from high grade materials including premium stainless steel or sustainable plantation grown White Oak and finished to the highest level by our skilled craftsmen. Individually assembled and finished by hand, our dedication to craftsmanship is evident in each product we manufacture.

YOU'RE IN THE RIGHT PLACE

Welcome to where the discerning come to discover the possibilities!

You're in the right place if you're a discerning Designer, Developer, or Architect who specialises in delivering large scale commercial projects on time and on budget. You balance top line quality with bottom line results - in short, you deliver value... every time!

You've built a solid reputation by delivering projects reliably and you want a partner you can trust to do the same.

Like you, ENTRO has a keen eye for detail. We don't buy into designs that don't perform. We deliver premium hardware possibilities and balance beautiful design

with functionality and durability. Like our client relationships, we build our product to last!

We understand that you are pressed for time, so we've banished long lead times. There's a comprehensive hardware range in stock ready to deliver to you anywhere in Australia. We make it easy for you to not only choose the right product but get it there without any hassle.

You are definitely discerning when it comes to products, services, and support. At ENTRO, we are too!

ENTRO's superior service and support makes the difference

When custom made, premium doorware is paired with impeccable support - the possibilities are endless.

From single product solutions to full project hardware specifications, the ENTRO dedicated hardware consulting team is here to help you navigate the specification process with our complimentary architectural hardware consulting service.

Our services include but not limited to:

- Product knowledge and advice
- Project hardware specifications
- Compliance, building, life-safety, and accessibility code advice
- Budget preparation
- Cross checking door types and frames
- Project management support
- Job Site reviews and pre and post installation inspections
- Variation reporting
- Promaster keying schedules
- Customised product design on selected products
- In-house colour finishing services

TESTING, COMPLIANCE, AND WARRANTIES

Rigorous testing and compliances ensures generous warranties are in place to cover all the possibilities.

Rigorous testing and compliance is conducted

ENTRO hardware complies with all building, life-safety, and accessibility codes and carries the necessary certification for occupancy approvals.

To ensure consistency is maintained, a quality control process is in place with a high proportion of products being tested for fire, durability, and security performance. This enables us to offer an extended 25 year warranty on key products

 DDA Compliant AS1428.1

 Fire Rated AS1530.4

 25 Yr Warranty

Generous 25 year warranty periods deliver long-term peace of mind

We guarantee the performance of our products to give you long-term peace of mind. If any product is found to be defective, we will replace or repair the item free of charge.

The ENTRO Product Warranty Period is a 25 year warranty on key products.

ENTRO Product	Warranty Period
Locks & Latches (A0100, A0400 & A4000 series)	25 Years
Door furniture (B0100, B2000 & B3000 series)	25 Years
Door controls (D1200, D1300, D0600 & D0700 series)	25 Years
All other ENTRO products	10 Years

ENTRO IS COMMITTED TO THE FUTURE THROUGH SUSTAINABILITY TODAY

Providing products and possibilities that last.

At ENTRO when it comes to our planet, we support the long game. Not only do we provide premium products that last, minimising the disposable impact of these elements, we believe that the possibilities should remain for those who come after us, long after our time on this planet is done.

We take our environmental commitment seriously and we aim to minimise our impact by continuously reviewing our methods, materials, and processes, and continue to seek out ways to lessen the environmental impact of our existence ensuring that we create an optimal approach to our business operations.

Our current commitments include:

- Making our products more sustainable
- Using non-polluting finishes
- Operating with energy efficiency
- Using clean energy sources and reducing CO₂ emissions
- Reducing our operational paper usage and embracing digital options
- Recycling, reducing, and reusing where possible
- Partnering with other sustainable companies
- Researching and implementing improved environmental solutions
- Giving back to our industry and our communities

DOOR CLOSER INSTALLATION GUIDE

Adjustment functions

Closing Speed
Speed of door leaf during closing.

Closing Delay
Delay in closing speed between 90° and 65°

Back Check
Opening motion is hydraulically slowed down from an opening angle of about 80°

Latching Speed
Speed of closing door leaf at opening angles between 0° and 15° until it reaches its closed position.

MASTER KEYING

Trusted first line of security.

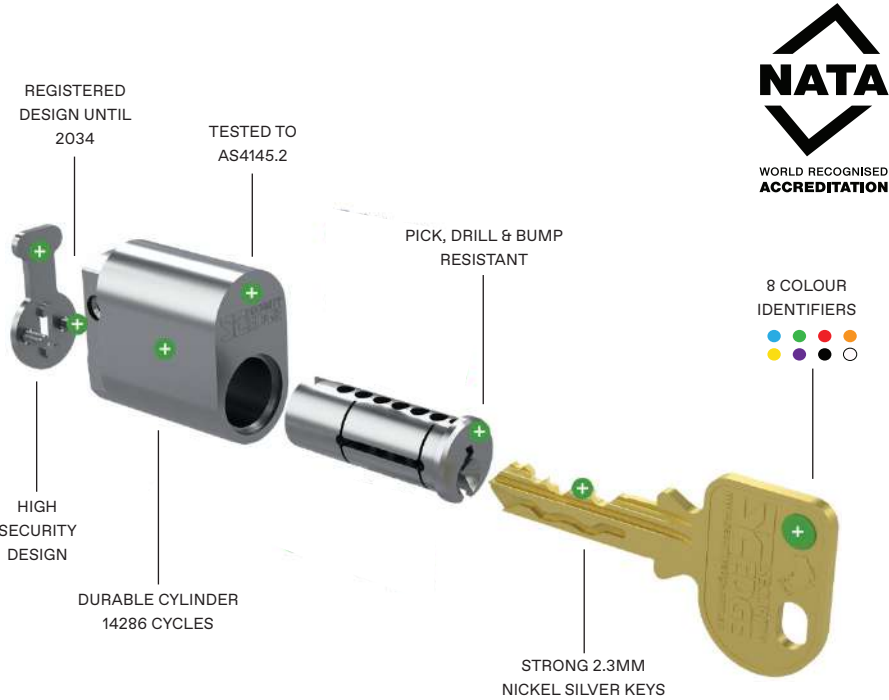

ENTRO master keying systems are widely trusted by clients as the first line of security for various projects.

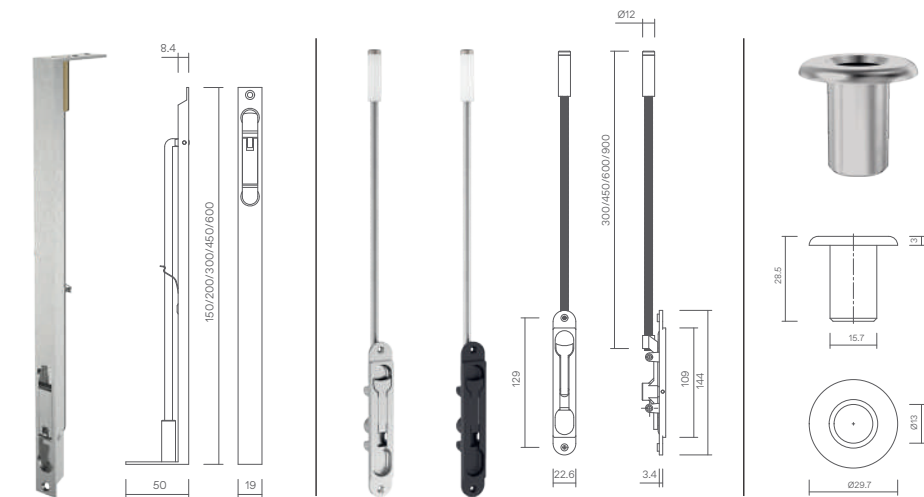

The Security Edge master key system features keys with unique side cuts that align with a sidebar in the cylinder for enhanced protection.

When the correct key is inserted, it matches the sidebar, allowing the lock to open.

The cylinder also includes a 6-pin inline keying system reinforced with a hardened pin to resist drill attacks. This advanced combination ensures superior security.

A keying schedule is developed to ensure relevant parties—such as Body Corporate, Building Managers, and Owners—have access to their respective areas.

Dual Fix

The dual fix range has been developed to provide a stylish and sturdy option for your bathroom accessories. Combined with a strong fixing bracket the 'dual fix' grub screws give double strength to ensure the product is securely fixed to the bracket.
