THE CHALLENGE

Asahi's new workplace required a refined hardware solution that reflected its premium brands while meeting the demands of a busy commercial environment. Consistency, custom finishes and attention to detail were key.

THE SOLUTION

Entro delivered a bespoke hardware package tailored to the project's aesthetic and functional requirements, with detailed scheduling and labelling to simplify coordination and installation.

THE OUTCOME

The completed hardware integrates seamlessly throughout the workplace, reinforcing the premium design while delivering the quality and performance expected across the fitout.

"We worked alongside the team at HOT BLACK from concept to handover to get the visuals and detailing right.
