

01

ENTRO

LA VERA

THE CHALLENGE

La Vera required a hardware solution that balanced everyday functionality with the refined detailing and contemporary character of the residences.

THE SOLUTION

Entro delivered a coordinated hardware package, including a custom handle developed specifically for La Vera to complement the project's interior design.

THE OUTCOME

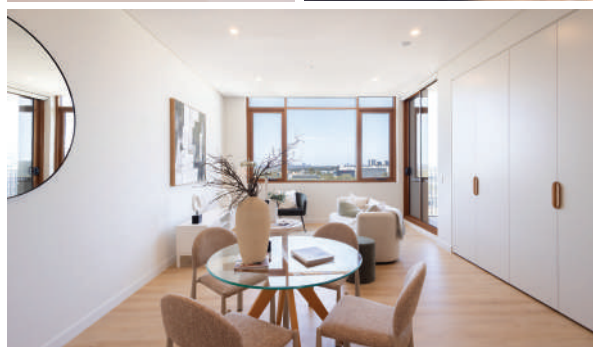

The completed hardware provides a cohesive and durable solution throughout, creating a consistent finish across the apartments and shared spaces.

Creating a custom handle for La Vera allowed us to deliver something unique that really complemented the overall design.
