## THE CHALLENGE

Crest required a refined hardware solution that complemented the development's minimalist architecture and premium material palette.

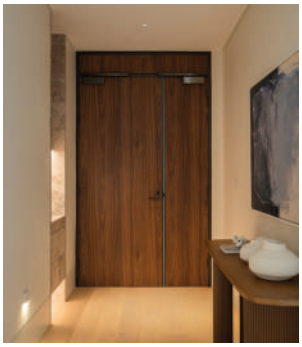

## THE SOLUTION

Entro developed a coordinated architectural hardware package, with carefully selected finishes and detailing aligned with the project's design vision.

## THE OUTCOME

A cohesive hardware solution designed to integrate seamlessly throughout Crest, complementing its natural materials and understated residential elegance.

"Crest was a great opportunity to deliver a tailored hardware solution that complemented the project's refined architecture and attention to detail.
